

THE THINK TANK FOR CHILD PROTECTION

**CHILD USA**

CHILD USA is a 501(c)(3) nonprofit located in Philadelphia, Pennsylvania. The current child abuse and neglect statistics are staggering; they are also incomplete. Across the nation, CHILD USA identifies the deficiencies in law and public policy that endanger children, does the legal and social science research to better understand the issues, formulates the better approach, and provides this information to those who advocate to pass laws and policy that protect children. Each of CHILD USA's research projects examines a problem at the intersection of the law, medicine, and policy. These analytics inform public policy to effect meaningful change and better facilitate a child-centered society. The organization combines leading lawyers, doctors and social advocates to find deficiencies in today's public policies and laws that endanger children.

## The Junior Council

CHILD USA is looking to expand its organization to the younger generation by creating the Junior Council comprised of intelligent, driven, and motivated young professionals. This new program will allow us to reach the next generation of child advocates and philanthropist and to grow our network and attract more people to our mission—protecting kids and preventing abuse. Junior Council members are expected to get their hands dirty and reach out to vendors, partner with non-profits, curate events, raise money, and recruit young donors. We are looking to eventually expand the Junior Council program nationally and we want a dedicated, organized, passionate founding council to create this platform. Junior Council members will work alongside Child USA's renowned lawyers, physicians, academics, policy makers and advocates.
